DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Amendment filed on 01/27/05.

Claim 5 has been cancelled.

Claims 1 and 14 have been amended.

Claims 25-26 are newly added.

Claims 1-4, 6-26 are pending in the present application at the time of examination.

Remark of Applicants has been considered.

Examiner Amendment.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Amend claim 6 because claim 6 depends on a cancelled claim (claim 5) as follow:

Replace "The method of forming shallow trench isolation with chamfered corners of claim 5" with ---- The method of forming shallow trench isolation with chamfered corners of claim 1----.

Reason for allowance

3. **Claims 1-4, 6-26 are allowed.** The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a method of forming a shallow trench isolation with chamfered corners comprising, among other steps cited in independent claims 1 and 14, the steps of pulling back the second mask layer a predetermined distance by wet etching to expose the first mask layer adjacent to the trench and result in the second mask layer having a tapered profile, and etching the second mask layer, the first mask layer, the pad insulating layer, and the substrate along the tapered profile of the second mask layer by anisotropic etching to chamfer corners of the trench.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao P. Le whose telephone number is 571-272-1785. The examiner can normally be reached on M-T (7-6).
